## Cosmetic Injectables & Facial Aesthetics

Infinity Skin Clinic - Surry Hills & Mosman, Sydney

### ANTI-WRINKLE TREATMENTS (COSMETIC)

Anti-wrinkle treatment prices are based on how many 'units' you need. You'll be guided during your consultation how many are required for the look that you want.

Common areas treated include the frown lines, forehead lines, crow's feet lines, lines on the bridge of the nose ('bunny' lines), lines around the mouth, lip 'flips', chin dimples, down-turned corners of the mouth & the neck bands.

- **1-49 units = \$17.5/unit**
- **50-59 units = \$17/unit**
- **60-74 units = \$16.5/unit**
- **75+ units = \$16/unit**

NB Minimum payment regardless of how many units are used = \$350

### FACIAL SLIMMING TREATMENTS

## FAT DISSOLVING TREATMENTS

---

Fat dissolving treatments require a minimum of two sessions to start seeing the results. (These are usually seen 8 weeks after session 2)

For extra slimming results, a third or fourth session may be suggested

### **Double chin area**

Ideal for patients mild to moderate double chin fat but no loose skin of the area

**from \$1300**

**from \$1800 (for larger double chins)**

### **Jowl areas**

This is a niche treatment and is only suitable in patients with good skin quality of the area. Jowls can also be improved with fillers which treatment is suitable will be decided during your consultation.

**from \$800**

### **Bra fat treatments**

This treatment helps soften the fat bulges often found between the front of the bra strap and the armpit or the back of a womens bra strap.

(If indicated, a breast examination with a female chaperone present will be performed before this treatment is done to ensure that there are no other causes of lumps or asymmetries).

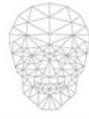

**Front of bra strap from \$800**

**Back of bra strap from \$800**

## AESTHETIC ULTRASOUND & FILLER DISSOLVING

---

Dr Jake is one of very few injectors who uses ultrasound to help visualise the anatomy of the face and where previous fillers have been injected. This can be used to help diagnose and treat a number of complications relating to previous filler treatments including:

- **lumps or swellings from previous fillers**
- **obvious asymmetry**
- **on/off puffiness of an area**
- **over-filled areas**
- **loss of lip shape or definition from previous fillers**
- **vascular occlusions (emergency filler dissolving of a blocked artery or vein)**

**Before booking, please email [drjake@drjakesloane.com](mailto:drjake@drjakesloane.com)** and explain in detail what the issue is. Before accepting any bookings, you must contact your previous injector and ask them for a full history of your previous injections, what products and amounts were used and what has been done already to try and rectify the problem. Filler dissolving is not suitable for all products or all situations and without a detailed history, Dr Jake politely declines these bookings.

If Dr Jake thinks he can help with the information provided, a consultation and ultrasound assessment will first be performed. If it looks like old filler can be dissolved and is in your best interests, filler dissolving will be offered on the day.

**Consultation + ultrasound assessment = \$500 (per session)**  
**+ filler dissolving (if needed on the same day) = \$400 (per session)**

**Follow up consultation and additional filler dissolving = \$500 (per session)**
