

DR JAKE SLOANE

Cosmetic Injectables & Facial Aesthetics

Infinity Skin Clinic - Surry Hills & Mosman, Sydney

CONSULTATION TYPES

Consultations with Dr Jake are divided into those for:

- **New patients**
- **Returning patients**

All consultations are \$250 and this is redeemable against the total price of a treatment if done on the same day.

If you don't want to have a treatment on the same day or you aren't suitable for a treatment, the \$250 is not refundable or transferable for a future treatment.

NEW PATIENT CONSULTATIONS

New patients are allocated plenty of time so that their medical history and aesthetic concerns can be discussed in detail. Treatments can be done on the day if you are suitable, medically fit and have consented for treatment.

- **Consultation only** - no treatment on the day (30 mins)
- **Consultation + anti-wrinkle treatment** (45 mins)
- **Consultation + anti-wrinkle + filler treatment** (60 mins)
- **Consultation + filler treatment** (60 mins)
- **Consultation + bio-remodelling treatment** (45 mins)

ANTI-WRINKLE TREATMENTS - COSMETIC

Anti-wrinkle prices are based on how many 'units' you need. You'll be guided during your consultation how many are required for the look that you want.

Common areas treated include the frown area/lines, forehead lines, crow's feet lines, lines on the bridge of the nose/'bunny' lines, 'lip flips', smoker's lines, chin dimples, down-turned corners of the mouth & the neck bands.

- **1-49 units = \$16.5/unit***
- **50-59 units = \$16/unit**
- **60+ units = \$15.5/unit**

*Minimum value of \$250

FACIAL SLIMMING TREATMENTS

The treatment involves slimming the masseter (jaw) +/- temple muscles. The total dose and therefore the price depends on the size of the muscles and desired outcome.

from \$800

TRAPEZIUS TREATMENTS

Trapezius slimming treatments are priced based on the size of the muscles.

from \$1240

CALF SLIMMING TREATMENTS

Calf slimming treatments are priced based on the size of the muscles.

from \$1750

ANTI-WRINKLE TREATMENTS - MEDICAL

TEETH GRINDING & CLENCHING TREATMENTS

These treatments may involve treating the masseter, temple and/or pterygoid muscles. Your dental history will be explored and Dr Jake strongly recommends that you first get dental advice to assess your bite pattern and condition of the teeth before seeking these treatments.

from \$800

SWEATING TREATMENTS

Reduce & stop uncomfortable sweating for 6-9 months. Areas that can be treated include the underarms, scalp, chest, back or palms. The total price is dependant on the size of the surface area being treated as this dictates how much product is needed.

from \$1250 per session

MIGRAINE TREATMENTS

Anti-wrinkle injections can be used to help reduce migraine-causing tension in the forehead, scalp, neck and shoulder muscles.

from \$1500 per session

HAYFEVER TREATMENTS

Anti-wrinkle product can be delivered into the nostrils in spray form to significantly improve the symptoms of hayfever

\$500 per session

FILLER TREATMENTS

Dr Jake will go through your specific needs during your consultation and create a bespoke treatment plan for your features.

- **1ml - \$850**
- **2ml - \$1600**
- **3ml - \$2300**
- **4ml - \$2800**
- **5ml - \$3500**
- **6ml - \$4200**

Additional mls in the same session - \$700

LIP TREATMENTS

Lip fillers are performed using (up to) 1ml of filler per session. Lip filler products vary and will be tailored to what your lip anatomy needs and the overall look you require. Sometimes two sessions will be recommended for very thin or certain shape lips.

\$850 per session

NOSE FILLER TREATMENTS

Fillers for the nose are deemed high risk but can be one of the most rewarding treatments. Ultrasound may also be used to identify the blood vessel of the nose before proceeding with a treatment.

\$1250 per session

BIO-REMODELLING TREATMENTS

This treatment improves the integrity, firmness and hydration of the skin. (These don't shape or volumise the face and this is why they aren't classified as 'fillers').

Patients report improvements including:

- improved skin texture
- firmer skin
- more hydrated skin
- less crepey skin
- an overall 'glow' to the skin

These treatments are initially performed over two sessions spaced a month apart. (For sun damaged or post-menopausal skin, it's recommended to have three sessions, spaced a month apart)

- **\$950 - one area per session**
- **\$1750 - two areas per session (\$875 per syringe)**
- **\$2400 - three areas per session (\$800 per syringe)**

Or for the best value, you can combine your bio-remodelling treatments with another service:

- **Anti-wrinkle (price varies) + bio-remodelling treatment (\$800/area)**
- **Filler (price varies) + bio-remodelling treatment (\$800/area)**

After the initial two or three sessions (spaced a month apart), maintenance sessions are recommended every:

- **4 months for drier, thinner or more mature skin**
- **6 months for standard maintenance**

REJURAN® TREATMENTS

Rejuran® treatments are a completely new class of injectable product that utilise polynucleotide technology (Marine-derived DNA fragments). Suitable patients for this treatment include those who want healthier skin, those with drier or sensitive skin, those who don't want fillers and toxins and those who want to utilise their body's own regenerative capabilities. Expected skin improvements include:

- **improved elasticity**
- **improved texture**
- **improved hydration**
- **reduced fine lines**
- **reduced oil production**
- **reduced pore size**

Three initial sessions are recommended, each spaced 2-4 weeks apart:

- **\$800 (entire face per session)**
- **\$1500 (entire face + neck per session)**

After this, maintenance sessions can be performed every 4-6 months depending on the need.

BIO-STIMULATOR TREATMENTS

Biostimulator treatments are another class of injectable products used specifically to improve the elasticity of the skin. Patients with 'stretchy' and sun-damaged skin are ideal candidates for biostimulators but they can also be used for improving collagen stimulation and for general skin quality improvement.

Two initial sessions are recommended for 'average' skin or three sessions for perimenopausal, more mature or sun damaged skin, each spaced 4 weeks apart:

- **\$1500 for the face per session**
- **\$3000 for the face + neck per session**
- **From \$1500 for crepey skin of abdomen per session (for 'mummy tummy's')**

Additional sessions are then recommend at 6 months for 'average' skin and 4 month for more mature or damaged skin.

FAT DISSOLVING TREATMENTS

Fat dissolving treatments require a minimum of two sessions to start seeing the results. (These are usually seen 8 weeks after session 2)

For extra slimming results, a third or fourth session may be suggested

DOUBLE CHIN TREATMENTS

Ideal for patients mild to moderate double chin fat but no loose skin of the area

from \$1400 (per session)

JOWL TREATMENTS

This is a niche treatment and is only suitable in patients with good skin quality of the area. Jowls can also be improved with fillers which treatment is suitable will be decided during your consultation.

from \$700 (per session)

BRA FAT TREATMENTS

This treatment helps soften the fat bulges often found between the front of the bra strap and the armpit or the back of a womens bra strap.

(If indicated, a breast examination with a female chaperone present will be performed before this treatment is done to ensure that there are no other causes of lumps or asymmetries).

from \$1400 (per session)

AESTHETIC ULTRASOUND & FILLER DISSOLVING

Dr Jake is one of only very few injectors in Australia who uses ultrasound to help visualise the tissues and anatomy of the face. This can be used to help diagnose and treat a number of issues relating to previous filler treatments including:

- **lumps or swellings from old fillers**
- **obvious asymmetry**
- **on/off puffiness of an area**
- **over-filled areas**
- **loss of lip shape or definition from previous fillers**
- **vascular occlusions (emergency filler dissolving of a blocked artery or vein)**

Filler dissolving typically only takes one session but occasionally further sessions might be required - for example if there is a lot of filler to dissolve or a particularly resistant product was used previously.

Consultation + ultrasound exam + dissolving = \$900 (per session)
