

HOW DO CONSULTATIONS WORK?

CONSULTATION OPTIONS

Consultations with Dr Jake are divided into those for:

- New patients
- Returning patients

All consultations are \$250 and this is redeemable against the total price of a treatment if done on the same day.

If you book for the 'consultation only' option or do not proceed to have a treatment on the same day, the \$250 is not refundable or transferable for a future treatment.

NEW PATIENT CONSULTATIONS

New patients are allocated plenty of time so that their medical history and aesthetic concerns can be discussed in detail. Photos will be taken prior to any treatment and a detailed treatment plan will be discussed.

Consultation only - no treatment on the day (30 mins)

Consultation + anti-wrinkle treatment (45 mins)

Consultation + anti-wrinkle + filler treatment (60 mins)

Consultation + filler treatment (60 mins)

Consultation + skin bio-remodelling filler (45 mins)

Consultation + fat dissolving treatment (60 mins)

Consultation + anti-sweating treatment (45 mins)

Consultation + aesthetic ultrasound +/- filler dissolving (60 mins)

RETURNING PATIENT CONSULTATIONS

Returning patients generally need less time for their treatments. They will have already completed their medical history forms and would have completed at least one treatment with Dr Jake prior.

If you think that you'll require a longer booking, please call the clinic and discuss this before booking in.

Anti-wrinkle treatment (30 mins)

Anti-wrinkle + filler treatments (45 mins)

Anti-wrinkle + skin bio-remodelling treatments (30 mins)

Filler treatment (45 mins)

Skin bio-remodelling treatment - 1st session (30 mins)

Skin bio-remodelling treatment - 2nd session (30 mins)

Fat dissolving treatment (45 mins)

Aesthetic ultrasound +/- filler dissolving (45 minutes)

Treatment review - anti-wrinkle treatments (15 mins)

Treatment review - filler treatments (30 mins)

PRICE LIST

ANTI-WRINKLE TREATMENTS (COSMETIC)

ANTI-WRINKLE INJECTIONS

1-49 units = \$16/unit*

50-59 units = \$15.5/unit

60+ units = \$15/unit

*Minimum value of \$250

Anti-wrinkle prices are based on how many 'units' you need. You'll be guided during your consultation how many are required for the look that you want

FACIAL SLIMMING TREATMENTS **from \$775**

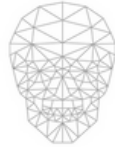

The treatments involve slimming the masseter (jaw) muscle. The dose and price depends on the size of the muscles and desired outcome

GUMMY SMILE TREATMENTS **from \$250**

Gummy smile treatments are quick and simple to perform. (Occasionally fillers are a better and longer-lasting option but you'll be guided during your consultation)

CALF SLIMMING TREATMENTS **from \$2100**

Calf slimming treatments are priced based on the large dose of product needed for both calves (approx 75-100 units per calf)

ANTI-WRINKLE TREATMENTS (MEDICAL)

TEETH CLENCHING & GRINDING TREATMENTS

from \$775

These treatments may involve the masseter, temple and/or pterygoid muscles. Your dental history will be explored and Dr Jake recommends that you get expert dental advice to assess your bite pattern and condition of the teeth before seeking these treatments

ANTI-SWEATING TREATMENTS

from \$1550 (100 units)

Reduce & stop uncomfortable sweating for 6-9 months. Areas that can be treated include the underarms, scalp, chest or back. The total price is dependant on the surface of the area being treated as this dictates how much product is needed.

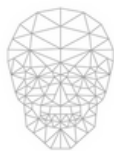

If you have excessive sweating, it's recommended to first have a consultation with your GP. Your GP may refer you to a dermatologist for a similar treatment where you might be eligible for a medicare rebate.

MIGRAINE TREATMENTS

from \$2000 (155 units)

Anti-wrinkle injections can be used to help reduce migraine-causing tension in the forehead, scalp, neck and shoulder muscles (using a minimum of 155 units as per the licensed migraine protocol)

Migraine-sufferers are reminded to first have a consultation with their GP to rule out other causes of headaches. Your GP may refer you to a neurologist for a similar treatment where you might be eligible for a medicare rebate.

FILLER TREATMENTS

FILLERS

\$800 (1ml)
\$1500 (2ml)
\$2100 (3ml)
\$2600 (4ml)
\$3000 (5ml)

There's no such thing as a cheek filler, a jawline filler or a tear trough filler 'price'. It just depends what your features require and you'll be guided in your consultation as to how many syringes of filler are needed

LIP FILLERS

\$800 (1ml)

Lip fillers are performed using up to 1ml of filler per session (0.5ml treatments are not available)

THE LIQUID NOSE JOB

from \$1200

Fillers for the nose are a specialised treatment requiring expert techniques. Ultrasound will also be used to identify the blood vessels of the nose before proceeding with a treatment

SKIN BIO-REMODELLING FILLER

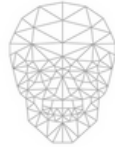

\$900 (one area per session)

\$700 per additional area

or \$700 per area if combined with an anti-wrinkle or filler treatment

This new class of filler helps improve the integrity, firmness and hydration of the skin but without any shaping or plumping of the face at all.

These treatments are performed over two sessions, spaced a month apart. For the best results, maintenance sessions are then recommended every 4-6 months.

FAT DISSOLVING TREATMENTS

Fat dissolving treatments require a minimum of two sessions to start seeing the results. For extra slimming results, a third or fourth session may be suggested in the future

DOUBLE CHIN

from \$1600 (per session)

Ideal for patients mild to moderate double chin fat but no loose skin of the area.

JOWL FAT TREATMENTS

from \$800 (per session)

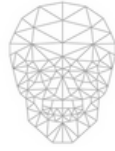

This is a niche treatment best done in patients with good skin quality of the area. Jowls can also be softened with fillers so this will be assessed during your consultations

BRA FAT (FRONT OR BACK)

from \$1600 (per session)

This treatment helps soften the fat bulges often found between the front of the bra strap and the armpit or the back of a womens bra strap.

(If indicated, a breast examination with a female chaperone present will be performed before this treatment is done to ensure that there are no other causes of lumps or asymmetries)

AESTHETIC ULTRASOUND & FILLER DISSOLVING TREATMENTS

AESTHETIC ULTRASOUND +/- FILLER DISSOLVING

\$800 (per session)

Dr Jake is one of very few injectors in Australia who uses ultrasound to visualise the anatomy of face. This is used to diagnose and treat issues from previous fillers including:

- filler lumps or swellings
- obvious asymmetry
- on/off puffiness of an area
- over-filled areas
- poor lip shape or filler 'migration'
- vascular occlusions (emergencies)

This usually only takes one session, but occasionally further sessions might be required - for example if there is a lot of filler to dissolve.

If you've had a treatment performed by another injector and are unhappy with the outcomes, please ask your previous injector for the notes of the treatment including dates of filler, the volumes and brands used and where they were injected in the face. This will help streamline the consultation and improve the likelihood of success.
